## CHICAGO AND ST. LOUIS BOTH GO DEMOCRATIC

### Windy City Commits Itself to Municipal Ownership--Late Election News.

Chicago, April 5.—A political tornado yesterday overwhelmed one of the most ruggedly unique leaders in the country. Incidentally the Republican party met defeat in a memorable effort to capture the mayoralty of Chicago. As a direct result the city is officially committed to the policy of the quickest possible cession of private franchises for public utilities. Municipal ownership is especially directed towards street car lines, valued high up in the millions.

After winning successively four remarkable biennial fights of independence against the regular Republican party organization here, John Maynard Harlan, son of Associate Justice Harlan, of the United States supreme court, was yesterday a loser as a Republican candidate for mayor. The defeat is attributed to an extraordinary whirl of causes, starting with political revenge and taking in a wide sweep embracing the most modern economic theories as a factor. The victor is Judge Edward F. Dunne, a Democrat.

Seldom, if ever, has Chicago witnessed a more lively, picturesque contest. Today, particularly, the city was hideous with the ringing of cow bells and the roar of cannon crackles.

**Corporations Not Afraid.**  
Chicago, April 5.—From a survey of the new city council membership as regards the probable action on municipal ownership of the street railways, friends of the corporations today assert that they are not fearful of the results of any legislation that may come before the councilmanic body as a result of the election of Judge Dunne as mayor.

**Rollin Wells' Won.**  
St. Louis, April 5.—Mayor Rollin Wells, democrat, was re-elected yesterday by a plurality of 1,425. The democrats elected twenty-six of forty-five officials, for whom the people balloted, exclusive of members of the board of education.

**All But One Democrats.**  
Oyster Bay, April 5.—Every Democratic candidate with the exception of town clerk was elected here at the summer home of President Roosevelt yesterday. As a result the Democrats will control Nassau county.

**Arkansas Elections.**  
Little Rock, Ark., April 5.—Municipal elections were held throughout Arkansas yesterday. In the cities of Little Rock, Argenta, Pine Bluff, Hot Springs and Helena the democratic tickets were elected without opposition for the most part. At Alma, W. P. Pitcock defeated his son, W. R. Pitcock, for city marshal. At Fort Smith indications are that the entire democratic ticket was elected. At Eureka Springs and Corning propositions to annex the outlying territory were voted on favorably. In many of the towns non-partisan tickets were elected, political lines not being held down.

**Nebraska Results.**  
Omaha, Neb., April 5.—City and village elections were held at all points in Nebraska yesterday with the exception of Omaha, which is governed by special charter. A majority of the smaller towns reporting early elected city tickets favoring high license of the liquor business. Interest generally centered in the license issue, and party lines when drawn, usually were on the issue of

### The Grand Jury Made Its First Report of the April Criminal Term Today

The grand jury, which went into session Monday morning, made its first report this morning, returning seven indictments and the minutes in two cases where the defendants are in jail or out on bond.

They are: One, against Mary Moody and Ned Banks, colored, and Icreene, for the theft of a grip full of clothes belonging to John Shocum from Chileno. The grip was stolen off a buck when Mr. Shocum, who is president of the National Blacksmiths' union, was coming to Paducah to address the local union.

One against James McIee, white, for selling an overcoat belonging to Alex Owen for \$1 claiming it was his property.

Two against Jim Winfield, colored, charged with cutting Adeline Morton and Char-

## NEGRO DESPERADO BLEW OUT BRAINS

### Preferred Death to Capture for Shooting Fulton Officer.

Henry Hutchinson, Closely Pursued to Gravel Switch, Killed Himself.

### SLIPPED OUT OF TOWN TODAY

Henry, alias Charles Hutchinson, the negro who shot Officer W. Y. Eaker at Fulton, Ky., night before last, committed suicide this morning before noon, one and a half miles from Tennessee river bridge at Gravel Switch, on the Illinois Central railroad by shooting himself in the head.

Last night Hutchinson was located on the north side in Paducah, but seems to have been well protected, as he had escaped when the officers went after him.

Chief Collins kept well informed on Hutchinson's actions, and telephoned up the I. C. to head the negro off, if seen. He got word early this morning from persons at Gitterville that a negro answering the description of the fugitive was seen crossing Tennessee river bridge and wanted to know if he should be taken dead or alive.

Chief Collins instructed the men to go after him and Messrs. Lee Vickers, John Tichenor, Tom Knight and George Owens started in pursuit.

They crossed the bridge and as there were two long lines of box cars standing at Gravel Switch, which is just on the other side of the river, decided to separate, one taking one line and the other the second.

Knight and Owen ran upon Hutchinson who stood near one end of the string of cars talking to another negro. They commanded him to throw up his hands but he refused. Whipping out his gun the desperado began to fire. Three shots were fired, none taking effect, but as soon as he began shooting the officers pulled their pistols and started in pursuit, firing as they ran.

The negro kept on down the railroad a few car lengths and realizing he would be taken, stopped, wheeled about and fired two shots, the remaining loads in his pistol, into his forehead.

The fugitive dropped to the ground and remained motionless, and death is said to have been instantaneous, the second bullet having entered the brain.

Chief Collins was notified of the suicide and ordered the body brought back to Paducah, and it will arrive at 4:30 this afternoon.

When Chief Collins learned this morning that Hutchinson was seen near Gitterville, he started Detectives Moore and McCuskey upon the moon train, which was late, to head him off at Kuttawa. They left before word of the suicide was received here.

Hutchinson, it appears, is a brother to Waddie Hutchinson, with whom the letter found in the trunk yesterday was addressed. Two negroes in jail at Hickman, to which place they were spirited from Fulton, yesterday, claim to be named Waddie and Rittenhouse Hutchinson, and admit that they were with Henry, or Charles Hutchinson, the negro arrested here yesterday and who killed himself today, when he shot Officer Eaker.

It is not known how or when Hutchinson slipped out of Paducah, but he is believed to have done it sometime before daylight. Every avenue leading out of the city had been closely guarded and it is remarkable that he was able to escape at all.

Chief Collins was determined to have the man dead or alive and had spent his own money since the desperado made his escape from the Paducah police at the station yesterday to keep on his trail.

Lieutenant Moore, when he arrived at Gravel Switch this afternoon, readily identified the negro as the right one, and telephoned the fact to Chief Collins.

After escaping from his holding place under the front steps of Mrs. Marie Cobb's residence on Broadway near Sixth, he vanished and up until last night at 7 o'clock had not been heard from. Last night he was located at a negro house in the north end of the city but when the police arrived, had again made his escape.

Waddie Hutchinson, the one arrested at Fulton, made a confession to the police and signed it. The confession is in the hands of Detective McCuskey. The negroes who were taken to Hickman and placed in jail say that Hutchinson simply pulled his gun, when he saw he was under arrest, and fled.

Bragg is a railroader who has a sick wife and two children who were in desperate circumstances and the husband out of a job. In a fit of desperation he went to a grocer, bought food on credit claiming he was under arrest, and fled.

the Paducah police information which led to the arrest yesterday, is in Louisville, his home, and can be secured whenever desired for a witness. He saw the shooting.

### TAXES REDUCED.

Fiscal Court Cuts It Down to \$130.

This morning fiscal court for the first time in years has decreased the county tax levy. The tax levy has been \$2 cents, which with the \$5 for state, makes a total of \$132. This morning the magistrates agreed on the rate down two cents, making it 60 cents for the county. The levy is apportioned as follows: Panpur fund, 5 cents; sinking fund, 35 cents; road and bridge fund 17 cents; county levy fund, 23 cents, making a total of 80 cents, or \$130 for state and county taxes.

### THOUSANDS KILLED BY AN EARTHQUAKE.

Lahore, April 5.—Reports

constantly increase the list of casualties and figures as to the amount of damage done by the earthquake felt over a wide territory of India yesterday.

Thousands are dead, and

many lack food.

In many places the people are suffering greatly.

In some places the entire

By An Explosion In a Connecticut Factory.

Bridgeport, Conn., April 5.—In

a terrible explosion that blew to pieces one of the brick buildings of the Union Metallic Cartridge Co., shortly before the close of the day's work yesterday, three men were instantly killed.

Great crowds gathered and waited outside the plant to seek their friends and relatives, as it was reported that many lives were lost. They were held in check, however, and the employees in the other buildings made their escape in safety.

The apparent horror of the situation was increased by the breaking

out of fire and the appearance of ambulances and police wagon, which hurried to the factory. A few moments after the explosion occurred the fire department arrived on the scene and succeeded in checking the flames quickly.

The only man in the building at the time, John Mary, was blown through the roof with a great mass of debris. He was dead when picked up.

Two helpers, Michael Hurley and Wm. Hayless, working near the building, were also killed.

The loss to the company will be about \$30,000.

### REVOLUTION NOW IN PROGRESS IN HAYTI.

Washington April 5.—Master Powell of Hayti, has reported to the state department that a revolution is in full progress at Port-Au-Prince and Monte Christo.

He reported yesterday that a number of cock fights were being held in the interior mud.

It is supposed now that these were used as a subterfuge to get the people together for revolutionary purposes.

## EARTHQUAKE DOES DAMAGE IN INDIA

### Eleven Shocks Were Felt--Loss of Life is Feared.

England Accuses Germany of Violating Agreement Relative to Possessions in Western Hemisphere.

### DIG PROJECT BEING TALKED OF

### THOUSANDS KILLED BY AN EARTHQUAKE.

Calcutta, April 5.—Much damage

was caused by an earthquake through out India yesterday. At Mysore it was

impossible for a person to stand without support.

Eleven shocks were distinctly felt.

Considerable damage was done.

The sharpest earthquake shocks

within the memory of the living inhabitants were felt at Lahore, and

most of the people left their swaying

and creaking homes to seek safety in the open. Damage was extensive.

It is feared there was considerable loss of life.

Simla, Dell and Agra were severely shaken.

### Eugene Not Satisfied.

London, April 5.—In the house of the earl of Jersey asked the government to say what action had been taken regarding the treatment of British traders by the German government in the Marshall and Caroline islands. His lordship and the question affected the general treatment of British traders in the Pacific

by Germany and if was the duty of

the government to see no right of

British trade was sacrificed or absorbed

by Germany or any other power.

Lansdowne said the matter was

engaging the close attention of the

government and the most urgent rep-

resentations had been made to Ger-

many.

He added that the situation was

most unsatisfactory; in fact, there

had been violation of Germany's

agreement securing equal rights to

British and German traders in Ger-

man possessions in the western hemi-

sphere. At present he was unable

to say what reply had been received

from the German government, but

the house might rest assured the mat-

ter would not be allowed to drop.

### SORT OF PIPE DREAM.

St. Petersburg, April 5.—Baron Loleq De Lohel, representing a French group which is engineering a project of connecting the railroad system of Russia and America by means of a railroad and tunnel under this city, chiefly inhabited by criminals, revolutionaries and suspected persons. The police seized quantities of revolutionary pamphlets and manifestos and revolvers and cartridges and arrested 63 persons. The search occupied the whole of the night.

## A Dollar's Worth Free To An Rheumatic Sufferer

I ask no deposit, no reference—no security. There is nothing to risk—nothing to promise—nothing to expect, either now or later. Any Rheumatic sufferer who does not know my remedy may have a full dollar's worth free to try.

I willingly make this liberal offer because I know that Dr. Shoop's Rheumatic remedy may be relied upon **ALWAYS** to bring the utmost relief that medicine can give, and to cure the disease, if used correctly, I studied the nature of Rheumatism.

### Cryostatic Remedy

Your body is always full of poison—the poison can eat and drink and breathe into your system. It is the purpose of the blood to absorb and carry off this poison. And the kidneys which are the blood filters, are expected to cleanse the blood and send it back through the system clean to gather more poison which, they, in turn, will eliminate.

But sometimes the kidneys fail. And sometimes, from some other cause, the blood gets so full of poison that they cannot absorb it all. This is the disease Rheumatism. The poison accumulates until it crystallizes. The crystals look like little grains of sugar or of flour, white sand. The blood carries them and they increase in size. Then it can carry them no longer, it deposits them in a joint—on a bone—anywhere.

The twinge in your leg—the dull ache in your arm—a rainy day—these are the outward signs of the unseen crystals. And the twisted limbs and unspeakable anguish of the sufferer who has been compelled to go unheeded and unattended for years—these are the evidences of what Rheumatism neglected, can do.

Rheumatism has three active sensations—aching, pain—for all these are the results of rheumatic poison in the blood.

Finally, the first thing to do is to remove the poison. But this is not enough. The FORMATION of the poison must be stopped, so that nature may have a chance to dissolve and eliminate the crystals which have already formed unless this is done there can be no cure—no permanent relief.

I separated the whole earth for a specific for Rheumatism—something that I or any physician could feel safe in prescribing—something that we still cases are sometimes cured by a single package. On sale at forty thousand drug stores.

### HAS RESIGNED

**BRIG. GEN. SATTERWHITE GIVES UP POSITION IN K. OF P.**

**Tomorrow the Staff Officers and Officers Will Vote for a Successor.**

The Paducah Uniform Rank, K. of P., has been informed that Thomas P. Satterwhite, Jr., who has taken a prominent part in all Knights of Pythias movements in Kentucky, has resigned his commission as brigadier general of the Uniform Rank of Kentucky.

The resignation was handed in to Gen. J. R. Carnahan. Mr. Satterwhite has also resigned as chairman of the entertainment committee of the Confederate Veteran reunion, which will be held in Louisville in June, and Breckinridge Castleman

has been elected in his stead. Both resignations were on account of bad health and lack of time.

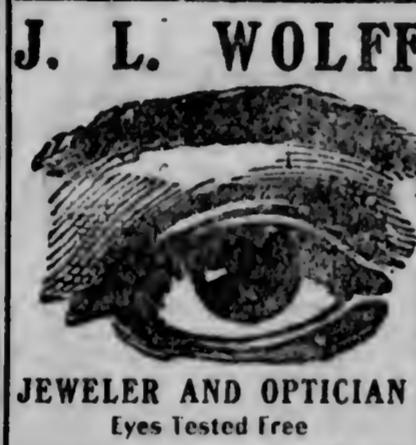

The election of a successor to Mr. Satterwhite as commander of the Knights of Pythias of Kentucky has been called for tomorrow, April 6, on which day all the staff officers and the heads of the companies throughout Kentucky will cast their votes for some man to be their head for the next four years.

Mr. Satterwhite is well known in Paducah. Judge R. T. Lightfoot, of Paducah, is major on his staff of the Uniform Rank.

### Library Board Met.

The public library board met last night in regular session, and decided to have about sixty of the volumes in the library rebound, as their condition is such that a new binding is necessary. The library board received a list of new books yesterday and desires to get a number of others as soon as possible, but it has been unable to get very little of this year's appropriation from the city.

MRS. MARY O. HAHN.

Mrs. Mary O. Hahn, one of the leaders of Chicago's social circles, writes:

For two years I have been troubled with biliousness, caused by inactivity of the liver. I had dizzy spells at times, pains across my back, and a tired heavy feeling, with loss of appetite and nervousness. Our family physician prescribed some liver tablets which certainly did not help me in the least. I took Apollinaris and other mineral waters, but my complexion became more yellow and my general health worse. Reading over one of your little brochures I decided to give Dr. Caldwell's (Laxative) Syrup Pepsin a trial and am so glad that I did. One bottle did more for me than \$1.00 worth of other remedies. I knew at once I had the right remedy. I kept taking it for several weeks, when I considered myself completely cured. My skin is white and smooth as a baby's, and I feel in excellent health and spirits, thanks to your Syrup Pepsin.

## KILL THE SERPENT

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this loathsome disease will pollute and vitiate the purest and healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison; the skin breaks out in a red rash, the glands of the groins begin to swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body is covered with copper-colored splotches, pustular eruptions and sickening-looking sores and abscesses. Many a man has been cut down in the prime of life, or his health so impaired that usefulness is destroyed, and he becomes a burden to himself and an object of pity to the rest of mankind. Contagious Blood Poison is the most annoying, humiliating and mortifying disease known to man.

I am compelled by a sense of gratitude to tell you of the great good your remedy has done me. Among other symptoms I was severely afflicted with Rheumatism, and got almost pass going. The disease got a firm hold upon my system; my blood was thoroughly poisoned with the virus, as characterized by the usual symptoms. I lost in weight, was run down, had sore throat, eruptions, splotches and other evidences of the disease. I was truly in bad shape when I began S. S. S., but the persistent use of it brought me out of my trouble, safe and sound, and I have the courage to publicly testify to the virtues of your great blood remedy, S. S. S., and to recommend it to all Blood Poison sufferers, sincerely believing and given a fair trial, it will thoroughly eliminate every particle of virus, no matter how severe the case may be.

Greeensburg, Pa., June 10, 1903.

JAMES CURRAN.

S. S. S. contains no mineral of any description, but is guaranteed entirely vegetable, and we offer \$1,000 for proof that it is not just as we represent it to be. It leaves no bad after-effects, but purifies the blood and at the same time builds up your general health. In chronic or long-standing cases of blood poison, where the stomach and digestion have been damaged by the use of minerals, S. S. S. will prove and helpful in restoring strength and activity to all parts of the system. Kill the serpent, crush out its life, or you are apt to feel the bad effects of the disease all your life. If you will write us fully about your case, our physicians will gladly advise without charge, and mail you a copy of our home-treatment book telling all about Contagious Blood Poison, its different stages and symptoms, and a lot of interesting information about this formidable and much-dreaded disease.

## TOWN BURNED

UILLIN, ILL., VISITED BY A DISASTROUS FIRE.

Help Sent From Murphysboro—The Loss Cannot Be Ascertained at Present.

Fire destroyed the larger portion of Uillin, Ill., about 20 miles north of Cairo on the Illinois Central yesterday.

The fire started shortly after midnight and burned fiercely until about 5 o'clock.

The wind was blowing a strong gale and the blaze spread rapidly.

The authorities wired to Mayor Winter at Cairo, asking that he send a fire engine on a special train, but before the message could be delivered a second message arrived stating that Murphysboro had sent an engine and that the fire was practically under control.

A passenger on an Illinois Central train last night stated that the fire had been a very disastrous one and that most of the stores and a large number of residences had been burned.

There is no fire fighting apparatus in Uillin and the flames had to be fought by bucket brigades.

Personally appeared before me this day E. J. Paxton, general manager of The Sun, who affirms that the above statement of the circulation of The Sun for the month of March, 1905, is true to the best of his knowledge and belief.

PETER PURYEAR,

Notary Public.

My commission expires Jan. 22, 1908.

## Daily Thought.

Work well done is the highest testimonial of character you can receive.—Success.

## The Weather.

Generally fair tonight and Thursday. Continued cool tonight, probably light frost. Warmer Thursday.

## THE USUAL WAY.

It is a pity that a dozen or more men elected in Paducah to represent the people, and transact public business in the name of the people, cannot do it in a quick, commonsense way.

There is the license ordinance. For weeks and weeks it was pulled and hauled from solicitor to committee, then to the boards, and from one board to the other only to be sent back for amendment, revision or further deliberation. Finally the general council got what it wanted, or thought it wanted, but no sooner did the ordinance pass than changes began to crop up.

First the ice business was licensed too high, then the opera house was given a reduction, it wasn't long until the boards decided to reduce the license on bath privileges—and now amendments are ordered by the council reducing the license on coin merchants, and repealing that portion of the license ordinance empowering the mayor to revoke saloon licenses for Sabbath violation. Is all this dilly-dallying, uncertainty and undesigning—what-was-done-yesterday, necessary? Why pass an ordinance fixing licenses at certain amounts, collect money under it several weeks, and then change it and begin giving back money?

Take the case of the coal dealers. Three of them paid their licenses without a protest, but for some reason the mayor decided it was too much, and a repeal was asked. With the city in need of funds, and even now borrowing money for general expenses, it proceeds to give back some of that collected only a few weeks ago, and which was at that time considered perfectly reasonable.

This license ordinance, after the weeks spent on it, was signed by the presidents of both boards, and after being "carefully scrutinized" by His Honor, the mayor, was signed. Yet it hadn't been in effect a month until these same representatives of the people began tearing it to pieces.

Perhaps some licensees are too high, but why wasn't it known beforehand? How can the people have any confidence in an administration that transacts business in such a slip-shod way? As to repealing that portion of the license ordinance which enables the mayor to revoke a saloon license, the mayor himself will doubtless never permit it, for the repeal can never get the requisite two-thirds vote over the mayor's veto—and of course the mayor will veto it. If the boards didn't want this provision in the ordinance, why did they put it there? Has it had any other effect than keeping all the saloons closed on Sunday?

ENCOURAGE THE CLUB.  
The general council could do nothing better than give the commercial

club the \$100 a month for which it has asked.

This organization is doing a great work for the city, and if it lands two enterprises alone that it is now after, it will have done enough for Paducah, to justify a \$100 monthly appropriation for the next ten years.

It is true that there is no appropriation for this especial purpose this year but the money could be taken from the contingent or some other fund. The central council can always get around these technicalities if it wants to.

It is to be hoped that the members will all vote for the appropriation for the club.

Why all this excitement over Rockefeller and Standard oil? What have they done, murdered somebody, overthrown a government, burned a city, sold solid coal oil about 30 cents a gallon cheaper than it need to be sold when the small fry producer supplied a large part of the public demands? If Rockefeller did not sell oil, how could he get rich, and if the people were not satisfied with prices how could he sell oil? Couldn't they buy gas, electricity or something else? If people would only think a moment, they would doubtless realize that Rockefeller's money is no more tainted than most of the rest of it. The trouble is so many people never stop to think.

Politics is getting more strenuous every day. Out in Atchison, Kan., a candidate for mayor wanted the opera house for a political meeting and it was booked for it. He hired the show and threw open the doors free and made his speech in installments between the acts. Needless to say he was elected.

Why not start the work of cleaning up the city? The filth of winter is undisturbed, and it is very important that it should be disposed of before hot weather. It is time the city started out sanitary inspectors, and the mayor should at once take some steps to do it.

It is very probable that when the president gets back to Washington not the least pleasant of the recollections of his vacation will be of his brief stop in Kentucky.

Yes, the Democratic county ticket is a good one, but some of those who love it least seem to be Democrats, and they may do something to it in November.

## JUSTICE BARBER

## WILL REFUND MONEY TO TAX-PAYERS FOR COUNTY.

Judge Lightfoot to Appoint Hines For This Work—Will Begin the Task Soon.

County Judge R. T. Lightfoot stated this morning that he would this week name Justice R. J. Barber as accountant to take charge of Inspector H. B. Hines' report and pay back the excess taxes collected by the sheriff and to return the tax receipts given the inspector and other officials when the investigation of the sheriff's office was made.

Judge Lightfoot stated that Justice Barber is about the best man for the position, being an expert and fully acquainted with this kind of work. He has been chairman of the finance committee of the fiscal board for years.

The report of Inspector Hines gives the name and address of each taxpayer who has paid too much taxes, and each will be sent a check for the amount.

Sheriff Potter will pay the total amount to the county, and the county will refund it to the taxpayers.

Justice Barber will begin work as soon as the complete report of Inspector Hines is received.

## "Laugh and Grow Fat."

Life is such a serious business with the average mortal that an opportunity for a hearty laugh is more than welcome to most people. A merry heart doth good like a medicine, and so do the humorous features of that great metropolitan daily, The Chicago Record-Herald. The first thing that greets you on the first page of every issue is the humorous cartoon by Ralph Wilder, the well known artist, that frequently tells more at a glance than could be conceived in a column of reading matter. Every issue contains also a humorous small story on the editorial page and the "Alternating Currents" column, written by S. E. Kiser, one of the most popular humorists in the country. In addition to all these, the Sunday issue always includes a comic section, guaranteed to produce laughter.

## BROCKWELL CASE WITHOUT PARALLEL

### Dr. M. M. Smith Comes to Make Phrenological Study.

Says Medical Profession and Criminologists All Over the World Will Be Interested in Case.

### LEFT FOR HIS HOME TODAY.

Dr. M. M. Smith, of Whiteville, Tenn., returned home this morning after a visit to Paducah for the purpose of making a phrenological examination of Mrs. Mary Brockwell, the woman in jail for poisoning her three children. Dr. Smith is a prominent physician, and father of Mr. Amber Smith, of the C. E. Jennings real estate agency here, and of Mr. Lothrop Smith, of the Equitable Life Insurance society of Louisville, but formerly of Paducah.

He came to Paducah to make the investigation of the Brockwell case solely in the interest of science and to satisfy his own desire for knowledge.

He said while here that it is one of the most remarkable cases in the annals of criminology, although the people of Paducah do not seem to realize it. The case has attracted far more attention among the doctors of Tennessee, he declared, than it has among those here in Paducah, and the medical profession all over the United States and even in London has become interested in the murder.

He said while here that it is one of the most remarkable cases in the annals of criminology, although the people of Paducah do not seem to realize it. The case has attracted far more attention among the doctors of Tennessee, he declared, than it has among those here in Paducah, and the medical profession all over the United States and even in London has become interested in the murder.

The reason of this is that the crime is almost unprecedented. Dr. Smith says that mothers have often been known to kill themselves or others for the sake of their children, and have even been known in fits of passion or insanity to kill one of their own offspring, but for a mother to deliberately poison three children, Dr. Smith says, is something that is most unusual, if not wholly unprecedented, and doctors all over the world will as soon as they learn of it take a great interest in the case.

Dr. Smith while here called at the jail and examined the woman's head. He is an expert phrenologist, and by locating and examining the elevations and depressions on Mrs. Brockwell's cranium, better known as "bumps," one can get a good idea not only of her disposition, intelligence, and good traits, but of her squalid as well.

He made a careful examination, but did not give out a report of what he found, before he left the city. In fact, he will have to make comparisons, etc., before he is ready to report on the case.

It is likely that he will find that he has not taken his trouble in vain, for when the case becomes more generally known, there will be a great demand for just the information he has taken the trouble to come here and obtain.

It is said that one thing that was very evident without much of an examination, however, is that Mrs. Brockwell is of inferior intelligence, even if entirely sane.

The grand jury has heard a number of witnesses in the Brockwell case, but has not finished, and will take up the case again this afternoon.

It is understood that Albritton will not be indicted with her, as there is no evidence, practically, against him.

### NO NOMINEE FOR SHERIFF.

James E. Baker Dies Suddenly at His Home in Murray.

Murray, Ky., April 5.—James E. Baker,Julier and Democratic nominee for sheriff of Calloway county, died suddenly of heart failure at his home in this city. ### DO IT NOW.

If you are going to save, do it now. You start the account and let the rest take care of itself. If you have one dollar you have enough to start an account. If you want one you can get a Metal Savings Bank to keep at home and save the small sums you usually waste. If saved they amount to a large sum.

Here's what one of our depositors says: "One of these little banks enables a fellow to save without feeling the drain. You can just drop something into it whenever you want to and in that way you save without hardly missing the money." That's the chief advantage of a Metal Savings Bank. They enable you to save without missing the spending money.

When you save you simply lay aside money for future use. You are not parting with it forever like you do when you spend it. You simply sacrifice the smaller pleasure of spending it now for the sake of the larger pleasure of spending it in the future when it will probably be more useful than it is now. If you ever intend saving, do it now.

### Theatrical Notes

It is seldom indeed that a well known "star" chooses a play in which he is not only absent from the stage during one entire act, but allows another member of the cast to score heavily in that act. But in "The Harvester," in which unique play Ota Skinner is soon to be enjoyed by local playgoers at The Kentucky on Friday night, Mr. Skinner in the fascinating role of the gypsy hero does not appear in the second act at all, during which time J. M. Colleville as the head reaper, Francois, gives a masterful portrayal and character study and brings down the curtain upon a startling climax of melodramatic force.

"The Girl and the Bandit," a comic opera in two acts, which will be seen at The Kentucky tonight is this season's effort of the Frank L. Percy Opera Co.

This company is newly organized and may be considered as the successor of the famous Bostonians, inasmuch as the manager and proprietor is the man who about ten years ago

sawed that famous organization. Mr. Perley is the discoverer of Alice Neilson, Grace Van Studdiford and a score of other prominent American operatic stars.

The opening scene, a wonderfully pretty one, is in an Italian city, and the central feature is an old Greco-Latin palace, which has degenerated, or it might be better to say, advanced into usage as a seminary for rich young American women of a marriageable condition. The Princess di Villamonte, a poverty-stricken noblewoman, has founded it as a tribute to her knowledge of the world and has made much money from American millionaires, who desire their daughters to marry Italian noblemen of ancient lineage.

She has a beautiful granddaughter, Violetta, by name, and about her, the exquisite love story of the piece centers.

That good old play, "Way Down East," was for the second time presented in Paducah last night at the Kentucky theater. The first time standing room was sold, but last night there was a mere handful at the theater. The play, however, was a treat. The company is fine and ev-

erybody knows what the pity is. Miss Ruby Bridges makes a pretty Anna Moore, and the sympathy of the audience is with her from the start. Wm. St. James is fine as Squire Bartlett, and Cyril Raymond is good in the part of David, the son. Arthur Ebbets, as the professor, is clever in one of the principal comedy roles, and J. A. Macurdy as the constable, who sings "All Bound Round with a Woollen String," never fails to get a laugh! Ida Ellis as Kate Brewster, is an ingenue of dramatic ability as well as attractiveness, and Laura Daere makes the best of a good character part as Martha, the village gossip. George Leach, as "Hi Heiler," kept the house in a roar, and deserves great credit for his work. Harry Maitland as Seth, was one of the best and shared the comedy honors, while the heavy role was gracefully played by J. Angus Gustaf.

The scenic effects were very fine and those who missed "Way Down East" missed one of the best on the road.

Mr. Procter L. Daugherty, of Washington, D. C., an electrical inspector for the government, was in the city today and inspected the electric lights and wiring at the custom house. He left at noon.

## FOR JOINT TICKET OFFICE IN THE CITY

Railroads to be Asked to Establish One Shortly.

I. C. to Be Asked to Put Shed at Depot and Stop Trains at 11th and Broadway Crossing.

THE COMMERCIAL CLUB MEETS

The commercial club will make several requests of the railroads this week, one being a matter which the city has been working on for several months. This was decided at the meeting of the commercial club last night.

The railroad companies will be asked to establish a joint ticket and freight office down in the city for the convenience of the merchants and general traveling public. The I. C. will be asked if it cannot stop trains at 11th and Broadway for the convenience of passengers who do not want to ride a mile and a half further and then have to take a cab or car to town and ride another unnecessary mile or two.

The road will also be asked to build a shed over the passenger depot, this being a matter the city has been working on for sometime. All requests have been referred to the railroad committee which will probably take action this week.

Col. Hen. Weillie, who always has an eye out for good, judicious advertisement of the city, stated this morning that the matter of putting up big sign boards on each side of the depot, would be suggested to the club at the next meeting. His idea is to have large sign boards placed in some prominent place where they can be easily seen giving the population of Paducah and a few of the facts connected with the town. The manufacturers and enormous business done by the banks and commercial institutions will also be shown and the boards are expected to prove a great advantage to the city.

The Commercial and Manufacturers' Association did not elect a secretary last night on account of the absence of President A. J. Decker. The salary was increased from \$1200 to \$1800 a year, however, and everything is in readiness for the election when the time comes.

There were several propositions before the club two from haggard factories, and if they are located here the club will be well repaid for all its work, even if it doesn't do anything else this year.

There are a number of applicants for the secretaryship, among them being the incumbent, Mr. H. E. Thompson, and Messrs. Frank B. May W. H. Parham and L. A. Bell Jr.

The club will have a delegation to go before fiscal court at the present term and ask for an annual appropriation for the maintenance of the club.

Cures Coughs and Colds.  
Mrs. C. Peterson, 625 Lake street, Topeka, Kan., says: "Of all cough remedies Billard's Horehound Syrup is my favorite; it has done and will do all that is claimed for it—to speedily cure all coughs and colds—and it is so sweet and pleasant to the taste." 25c, 50c, \$1 bottle.

Will Leave Here.  
The Toledo club who have been in training here will leave Paducah and go to Memphis.

About six men will be left here for practice and will join the team at Evansville after the southern circuit has been made. It is said that Manager Flin will not begin releasing players until he reaches Toledo and it is probable not one he now carries will be sent back to the smaller leagues.

Beef is going down daily—in restaurants.

The nice increase in our business since the first of the year is very encouraging to us.

### AN I. C. EXTENSION.

Surveys Are Now Being Made in Indiana.

Chicago, Ill., April 5.—The Illinois Central has commenced surveys of the Vermillion county and western Indiana coal fields with a view of making an extension of its lines into Indiana. It would have to lay but forty miles of track to reach the Indiana counties. The line proposed is to extend south from Kankakee, touching a point on the Lake Erie and Western, near Franklin, thus giving an outlet on the Central for the Lake Erie coal. The extension appears reasonable, owing to the announcement that the Vanderbilts are to build from Kankakee to Chicago. With the loss of the Big Four business north of Kankakee, the Illinois Central probably wishes to even up by extending southeast, touching Danville and other important cities. It would then share with the eastern Illinois, the Wabash and Big Four the business in eastern Illinois and western Indiana.

### Dope Up Again, Friend.

The Paducah press is sneering at the news of another survey direct to Mayfield from the new I. C. railroad bridge across the Tennessee river below Gilbertsville exhibits the jealousy of insufferable bigotry and we fully expect the commercial club of that place to send another deputation of protestants to Chicago to cut it all out.—Mayfield Mirror.
